HB HB 536

February 18, 2009

Montana House of Representatives

House Transportation Committee

The Honorable Representative Sonju and Committee,

Mountain Peaks, Incorporated provides ignition interlock services across the State, and maintains staffed, full service interlock shops in Great Falls and Billings.

We urge you to thoughtfully consider and pass HB 536.

HB536 is a common sense approach to ensuring the safety and welfare of Montanans. Ignition Interlock has proven to be an effective tool in combating DUI. HB536 simply strengthens our current statute to ensure all vehicles owned by an driver required to install a interlock device are indeed covered by law.

If you have any questions on Ignition Interlock, please call Steve or myself at 406-453-6784, or visit [www.mountainpeaksinc.com](http://www.mountainpeaksinc.com).
